Re: Thanks for your exceptional work

Dear Scott:

I want to express my gratitude for all of your efforts and assistance on my behalf.

As a physician who has had the privilege and honor of serving as one of the principal doctors for some of the finest athletes in the world, and one who cares deeply about the importance of providing the best medical care possible, I am acutely aware of real talent. You fit in the category of the finest I know.

You have shown an extraordinary ability to assimilate and strategically analyze large amounts of detailed amounts of information. Then, in successful battle-like fashion, you thoughtfully provide creative, winning strategies that show a true understanding of the goals and best interests of the client.

You demonstrably show how much you care about the client and the case, and result of your remarkable work product how shown its effects in many helpful ways.

It was equally pleasurable to see your skills to be equally proven by personal positive comments of judges at hearings, and even having opposing counsel – a senior partner in the one of the largest and most well-known firms - admitting on the record that you were "far more knowledgeable on the law than he" on the legal subject(s). It is rare to experience such events, and to feel so empowered in knowing that one has such able, respected counsel in your own corner.

Your detailed preparation and presence has commanded respect and response from judges and attorneys, and has certainly left me privileged to have you as an advisor.

Your brilliance in your work as an attorney on my behalf is only surpassed by your character as a human being. Your generosity of heart is unparalleled. You serve are a role model to those around you, and truly want to make the world a better place and to strive to be the best people we can be.

If I can be of assistance to you in any way in the future, or if prospective client ever needs a reference, please have them contact me directly.

Our firm, and I personally, wish to thank you for the incredible work you have performed on behalf of our clients. The cases you have handled were of an extremely difficult and complex nature and required creative solutions to mount a successful campaign for victory in the courts. Your skillful lawyering of these cases resulted in remarkable successes for our clients, and gave me and our law firm the kind of great confidence that is important when referring cases to another law firm. Your entire team was a pleasure to work with.

You were also exceptionally well prepared, and as an experienced lawyer who has seen you in action, I have no compunction in claiming that to my knowledge no lawyer demonstrates a better grasp of the law than you. The judges were extremely impressed with your knowledge base, professionalism and candor. We also commend your personal dedication to the causes, and the intensity and energy that is necessary to give clients confidence and to convince judges of the correct decisions to make in a case.

It is not surprising why you have won the *National Litigator of the Year* Award from that billion-dollar conglomerate or why people with significant cases regularly retain you again and again.

I hope to have the pleasure of working with your office in the future.

Sincerely,

Elan I. Baret, Esq.

Dear Mr. Mager:

We just wanted to let you know how much we appreciate your exceptional work with regard to our clients, Ocean World, S.A. and its affiliates and subsidiaries.

As you know, with damages exceeding \$100,000,000.00 (One-Hundred Million Dollars), the Ocean World cases are some of the most significant in the country. We have devoted thousands of hours to these cases and amassed an incredible legal team, and your leadership and intelligence - in the appellate arena and with tactical suggestions for the continuing matters at the trial level - has been exceptionally helpful to our cause.

The most recent tasks which you agreed to undertake on our part required significant intellect and understanding of the technical nuances of Appellate Court and Supreme Court procedure, as well as a keen ability to communicate in written format such that the Appellate Court and Supreme Court would clearly understand the legal issues and to help the entire Panel of Judges (over 12 in the Appellate Court alone) appreciate the need for creation of a systematic test for analyzing our legal issues - issues which are common in big litigation.

As usual, you rose to the occasion and beyond, even providing pioneering creativity in your written arguments to the Court(s). They have resulted in very favorable positioning for our clients, and have certainly provided the innovative framework for Courts around the country to fashion solutions that are applicable in thousands of new cases. Additionally, your thoughts on dealing with the challenges with electronic information and its impact on parties and jurisdiction in these cases were remarkable.

We have dealt with thousands of lawyers/law firms in our careers and we find you to be the finest expert around.

It has been a pleasure working with you again. Your success also reminds me of your incredible victory against the two top (major) law firms in the history of Palm Beach County, and how you destroyed each of their top-in-the-country, treatise writing experts in such organized fashion. Your marshalling of the hundreds of thousands of documents and your first-of-its-kind utilization of cutting-edge technology is remembered with fondness by many a great attorney.

It is not surprising that you recently won the National Litigator of the Year Award for another multi-billion dollar conglomerate, or that you successfully designed and implemented their entire National Litigation Plan; or that in an entirely separate case for a professional, you secured that recent \$9.4 million dollar verdict on such difficult facts; or that you continue to be respected by the top appellate lawyers in the land. I was equally impressed when I learned that you were asked on multiple occasions by the Florida Judges Division to serve as an Instructor for training of Judges.

On a personal note, I appreciate your professionalism, friendship and kindness. It is not often that such leaders give the time that you extended to me (now nearly 15 years ago) when I first arrived in Fort Lauderdale. You were always available to provide me/us with any legal insight on law or particular judge's tendencies, without ever requesting compensation for your sincere devotion to those around you. I will never forget that.

I look forward to continuing to work with you on these cases and others, and thank you so very much for agreeing to successfully assist us in these matters.

Kindest regards,

PENALTA & STIGER, P.A.

Dear Scott:

I am writing on behalf of the senior management of Peak Medical Corporation to thank you and your colleagues for the excellent representation provided by your firm. Since our introduction last fall, you have demonstrated that you are clearly one of the up-and-coming shining stars in the legal world. There are many bright lawyers around, but few deliver the intelligence, charisma and passion on behalf of a client the way that you do.

We have also been very impressed with the organization and abilities of your law firm. You have assembled a stable of legal talent that mirrors your own high-energy, driven-to-succeed style. Particularly impressive is your firm's use of cutting-edge technology that enables it to prepare and try cases in a manner unmatched by most firms today. Beyond their technical competence, the your staff members are very engaging and easy to work with.

In summary, you and your firm have made a tremendous contribution to the well being of our company and you have our complete confidence. I personally have enjoyed the opportunity to work with and learn from you and believe that you can be of benefit to any organization in need of high quality legal representation. You may feel free to use our company as a reference in your future business dealings.

Very truly yours,

PEAK MEDICAL CORPORATION

Mikhail Kleyman Director

As a member of the Board of Directors of Huntington Lakes, Inc. I want to take this opportunity to thank you for your excellent representation re: Huntington Lakes v. FIGA which was recently settled for seven figures.

Without doubt this complicated matter was settled mainly due to your knowledge, experience and professionalism. I did not believe that you would be able to sort through the massive paperwork that had been generated over a five year period and resolve the matter to our satisfaction, especially having had to step in when our prior attorney abandoned us. I do believe that the word "abandoned" is not strong enough.

Your dedication to the Board of Directors of Huntington Lakes was without equal. I know that even opposing counsel has become an admirer of yours.

Best wishes for your continued success.

Paul Plump

Sincerely,

Scott Mager, Esq.

Scott,

Once again let me thank you for the unbelievable job that was accomplished this past week with my court case. For me to walk away with no liability and for you to have had only a week or two preparation time is a testament to your ability.

Aaron and I are both thankful for your skillful assistance in the preparation of the defense.

The judge and jury loved you and so did we.

Please do not hesitate to have me serve as a reference for potential future clients.

All the best,

Ron Ostroff, CEO
